

Best Pizza

EVO

(Extra Virgin Oven, LLC)

\$

EVO's pizza can be purchased at the Kiawah open-air market, I'On market, Myrtle Beach market, Charleston Farmers Market, Park Circle Coffee & Cream in North Charleston (see dining guide for address). The pizza can also be purchased for catered events.

It's a relatively novel idea to cart around a portable wood-burning oven to fire up pizza that's served at local farmers mar-

kets. Yet, that's what EVO does. It was the brainchild of two young food & beverage veterans who share a passion for cooking and fresh produce.

The team (and its staff) use fresh, seasonal produce that's actually being delivered to the markets to top the sensational, crispy, thin-crust pies. The wood-burning oven lends smoky flavor while the flaming oven fills the brief wait with anticipation and drama. It's delightful to eat the fresh-from-the-oven pizza in a green, quiet, outside space, savoring each and every bite along the way.
